RE: FOIA Request No. 19-0059

Dear Dr. Nevin:

This is in response to your Freedom of Information Act (FOIA) request dated April 1, 2019, which we received on the same day. Your request was assigned case number 19-0059. You requested, *"All documents, including emails, written correspondence, memorandum, meeting agenda, and any other records of consultation between the Peace Corps and the Centers for Disease Control and Prevention, from January 1, 2018 to the present, related to the Peace Corps' anticipated or completed implementation of section 101(a)(2) of the Sam Farr and Nick Castle Peace Corps Reform Act of 2018 (Public Law No: 115-256), which requires that 'The Director of the Peace Corps shall consult with experts at the Centers for Disease Control and Prevention regarding recommendations for prescribing malaria prophylaxis, in order to provide the best standard of care within the context of the Peace Corps environment.'"* A copy is enclosed for your reference.

The FOIA office located 68 pages of responsive records in the Office of Health Services. A records search conducted within the Office of the Director and Post Logistics and Support Division, Administrative Services, did not locate any responsive records. The 68 pages responds to both of your cases 19-0059, as well as 19-0056. I have determined that the responsive records contain information under the cognizance of the Centers for Disease Control and Prevention (CDC). Accordingly, I have referred both requests with 68 pages of responsive information to the CDC for processing and direct response to you. If you have any questions

regarding the referral of case 19-0059, please contact the CDC FOIA department at FOIARequests@cdc.gov or by mail at:
